

Standard Operating Procedure (SOP) - OPS-005

ANS Booking & Record Management

Purpose

To ensure all appointments, client records and administrative tasks within **Aesthetic Nurse Software (ANS)** are managed accurately, consistently and in accordance with the clinic's procedures, maintaining an efficient booking system and excellent client experience.

Responsibility

This procedure should be followed by all Receptionists, Administrators and authorised members of staff with access to ANS.

General Principles

ANS is the clinic's primary booking and client management system. It should be maintained accurately and updated throughout each working day.

All information entered into ANS must be:

- Accurate and up to date.
- Professional and factual.
- Entered promptly.
- Treated as confidential in accordance with GDPR and the clinic's Data Protection Policy.

Appointment Management

Appointments may be received via:

- ANS online booking
- Telephone
- Email
- WhatsApp
- Social media
- In person

When creating a booking:

- Confirm the client's full name.
- Confirm their contact telephone number.
- Confirm their email address.
- Confirm their address.
- Select the correct treatment.
- Assign the correct practitioner.
- Confirm the appointment date and time.
- Add any relevant booking notes where appropriate.

Approving Online Bookings

The **Notifications** section of ANS should be checked regularly throughout the day.

When reviewing a booking request:

- Confirm the appointment is suitable for the requested treatment.
- Check practitioner availability.
- Approve the booking promptly where appropriate.
- Contact the client if any amendments are required.

Booking requests should not remain pending unnecessarily.

Client Records

Each client record should be kept accurate and up to date.

Where applicable, ensure the following information is recorded:

- Personal details
- Contact information
- Medical questionnaires
- Consent forms
- Treatment history
- Clinical photographs
- Practitioner notes
- Communication preferences
- Appointment history

Only factual and professional notes should be entered.

Medical Questionnaires & Consent Forms

Following appointment confirmation:

- Send the appropriate medical questionnaire.
- Send the relevant consent forms.
- Monitor completion prior to the appointment.
- Follow up with the client if documentation has not been completed before their visit.

Daily Administrative Tasks

Throughout each day:

- Check the ANS Notifications section regularly.
- Approve new appointment requests.
- Monitor appointment changes and cancellations.
- Update treatment notes where required.
- Ensure client records remain complete and accurate.
- Check for incomplete forms or outstanding actions.
- Update the invoice section following treatments where required.
- Ensure payments have been recorded correctly.

Appointment Changes

If a client wishes to amend or cancel an appointment:

- Update ANS immediately.
- Offer alternative appointment times where appropriate.
- Notify the relevant practitioner of any significant diary changes.

End of Day Checks

Before finishing each working day:

- Review the following day's appointments.
- Ensure all bookings have been confirmed.
- Check that medical questionnaires and consent forms have been sent.
- Identify any outstanding client actions.
- Ensure any amendments made during the day have been recorded correctly.
- Confirm invoices and appointment records have been updated where required.

Data Protection & Confidentiality

ANS contains confidential client information and must be accessed responsibly.

Staff must:

- Never share login details.
- Keep client information confidential at all times.
- Only access records necessary to perform their role.
- Report any suspected data breaches immediately to the Clinic Manager.

Quality Assurance

To maintain accurate clinic records:

- Regularly review client records for completeness.
- Correct errors promptly.
- Escalate any booking discrepancies or system issues to the Clinic Manager as soon as possible.
