

Standard Operating Procedure (SOP) - OPS-009

Incident Reporting

Purpose

Radiant Medical Aesthetics is committed to providing a safe environment for clients, staff and visitors. This procedure ensures that all incidents, accidents and near misses are reported, investigated and managed promptly to reduce risk, improve patient safety and support continuous improvement.

Scope

This procedure applies to all staff, contractors and clinicians working within the clinic.

Responsibilities

All staff are responsible for:

- Reporting incidents immediately.
- Taking appropriate action to ensure safety.
- Completing an Incident Report Form as soon as possible.
- Cooperating with any subsequent investigation.

The Clinic Manager is responsible for:

- Reviewing all incident reports.
- Investigating incidents where appropriate.
- Implementing corrective actions.
- Monitoring trends to reduce future risks.
- Reporting incidents externally where legally required.

What Should Be Reported?

The following must be reported:

- Client accidents or injuries.
- Staff accidents or injuries.
- Near misses.
- Sharps injuries.
- Medication or prescribing errors.
- Clinical complications outside expected treatment outcomes.
- Equipment failures affecting safety.
- Fire or security incidents.
- Data protection or confidentiality breaches.
- Aggressive, threatening or abusive behaviour.
- Property damage.
- Any event that could potentially affect client or staff safety.

Procedure

1. Ensure Immediate Safety

If an incident occurs:

- Stop treatment if necessary.
- Make the area safe.
- Provide first aid where appropriate.
- Contact emergency services if required.
- Seek medical assistance where necessary.

2. Inform the Clinic Manager

Notify the Clinic Manager immediately, or the senior clinician on duty if the manager is unavailable.

3. Complete an Incident Report

Complete the Incident Report Form as soon as possible, ideally on the same day.

Include:

- Date and time.
- Location.
- Individuals involved.
- Description of the incident.
- Immediate actions taken.
- Witness details (if applicable).
- Outcome.
- Name of person completing the report.
-

Reports should be factual, objective and free from personal opinion.

4. Investigation

Where appropriate, the Clinic Manager will:

- Review the circumstances.
- Speak with those involved.
- Identify any contributing factors.
- Determine whether additional action is required.
- Recommend measures to prevent recurrence.

5. Follow-up Actions

Depending on the incident, follow-up may include:

- Equipment servicing or replacement.
- Staff retraining.
- Policy or SOP updates.
- Environmental improvements.
- Client follow-up and welfare checks.
- External reporting where legally required.

Confidentiality

Incident reports are confidential documents and will be stored securely in accordance with the clinic's Data Protection & GDPR Policy.

Information will only be shared with individuals who require access as part of the investigation or where legally required.

Learning & Continuous Improvement

Incident reports are reviewed periodically to identify trends, improve procedures and reduce the likelihood of future incidents.

Near misses are treated with the same importance as actual incidents, as they provide valuable learning opportunities.
